

# RT-DDA Diamond discs Turbo Concrete Heavy Duty

Segmented turbo type diamond discs for cutting reinforced concrete, paving and hard construction materials

Certificate  
EAC

## Product information

### Features and benefits

- The special shape of the segment enables the cutting of hard materials
- 10 mm high segment provides extra time for work
- Compensation grooves cool the discs allowing for work without cooling water
- High-quality laser connection between the segments and the disc increases the service life and the cutting efficiency
- The internal bore of 22,23 mm allows for use with all angle grinders available on the market

### Applications

- Cutting of reinforced concrete, paving and hard construction materials

### Base materials

- Reinforced concrete
- Concrete
- Cobblestone

### Attention
