

RT-DDE Disc with diamond coating Multi

Disc with diamond pour pattern for cutting various materials including aluminum, copper, plastic

Certificate
EAC

Product information

Features and benefits

- Diamond pour pattern allows using the disc for many types of materials
- Side pour pattern prevents wedging of the blade material
- High-quality connection between the diamond pour pattern and the disc increases the service life and the cutting efficiency
- Compensation grooves and compensation bores cooling the discs allow for work without cooling water
- The internal bore of 22,23 mm allows for use with all angle grinders available on the market

Applications

- Cutting a variety of materials including aluminum, copper, plastic

Base materials

- PVC Profile
- Gres
- Non-ferrous metals
