

RT-FWD Formwork drill bits

Formwork drill bits for drilling deep holes in timber and light construction materials

Product information

Features and benefits

- Made of high-quality hardened alloy steel, which ensure high durability
- Point angle of 118° allows you to drill in wood and light construction materials
- Difference in the diameters of working and gripping parts ensure safe work without the jamming of the drill bit in deep holes
- Very long shank of the drill bit allows you to drill deep holes

Applications

- Drilling deep holes in wood and other wood-based materials

Base materials

- Timber
- Wood
- Chipboard
- Oriented Strand Board
- Plasterboard
